

Cloth Belts

Cloth Belts

Cloth backed belts are normally used on primary contact roll heads because of the potential for breakage when thick and tapered parts are randomly fed into the sander. Cloth backed belts will withstand shock caused by dimensional variations which may cause breakage of paper wide belts.

RFY-86

Abrasive for Metal Working, Wood Working, MDF, Particle Board.

Technical Specifications

Shape:	Narrow Belt, Wide Belt
Backing:	X-weight Cloth Poly-cotton
Abrasives:	Closekote Aluminum Oxide
Popular Grit Size:	P24-P400
Width:	1360mm
Application:	Metal Working, Wood Working, MDF, Particle Board

RFY-88

Abrasive for Wood Working, Furniture.

Technical Specifications

Shape:	Narrow Belt, Wide Belt
Backing:	X-weight Cloth Cotton
Abrasives:	Openkote Aluminum Oxide
Popular Grit Size:	P24-P400
Width:	1360mm
Application:	Wood Working, Furniture
