

1920 siawood

Advantages

- Perfect surface thanks to TopTec
- Dust-free process; antistatic construction gives low dust formation on belt, workpiece and machinery
- High surface quality when sanding hardwood
- High removal rate and fine surface quality on hardwood across the entire grit range
- High surface quality using fine grit sizes

Applications

- Flush sanding of edges, edge bands and protrusions
- Calibration, medium and fine sanding of surfaces
- Intermediate sanding of polyester varnishes

Properties

- Removal rate: Very high
- Lifetime: Very long
- Stability: Strong
- Finish: Very good

Product Profile

Grit	: semi-friable aluminium oxide
Adhesive	: synthetic resin
Backing	: f-wt paper
Grit range	: P060 – P400
Coating	: closed
Equipment	: TopTec
